<u>Summer Break Discount Period:</u> You will receive a 50 percent discount off the Energy Charge for all usage consumed during the Summer Break Discount Period. Summer Break Discount Period is from June 1, 12:00 a.m. through September 30, 11:59 p.m.																
The TDU provides your total monthly kWh usage, as well as the interval data from your advanced Smart Meter. The interval data is used to determine the percentage of usage eligible for the Summer Break Discount. That percentage is then applied to your total monthly kWh usage to determine your Summer Break Discount credit. A provisioned Smart Meter is required for this product.																
TDU Delivery Charges Per Month and TDU Delivery Charges Per kWh will be passed through to customer as billed from the Transmission and Distribution Utility (TDU).																
Some cities have authorized a TDU Underground Facilities Cost Recovery or similar charges that are not included in the average price shown above. For more information about these charges, please go to ambitenergy.com/municipalfees .																
Other Key Terms and Questions	Each month you will also be billed all taxes, including sales tax, and reimbursement for the state miscellaneous gross receipts tax as applicable. See Terms of Service statement for a full listing of fees, deposit policy and other terms.
