

Electricity Facts Label (EFL)

Gexa Energy, LP • PUCT Cert. #10027

Gexa SavEV 24

Oncor Electric

Date:08/01/2026

Electricity Price

Average Monthly Use	500 kWh	1000 kWh	2000 kWh
Average Price per kWh	12.5 ¢	15.4 ¢	16.9 ¢

The price you pay each month includes the Energy Charge and TDU Delivery Charges in effect for your monthly billing cycle. Average Price per kWh assumes 270 kWh of the Average Monthly Use earns the Nighttime EV Charging Credit each month, while the remainder of the Average Monthly Use does not earn the Nighttime EV Charging Credit, as defined below, and that you own a Level 2 EV charger and have the ability to schedule your EV charging to occur during Nighttime EV Charging hours. Any Home EV Charging that occurs outside of the Nighttime EV Charging Hours will be charged at the standard Energy Charge. This price disclosure is an example based on average prices. Your actual average price per kWh will vary according to your actual usage, the below price components, your EV type, your home EV charger type, and your EV charging patterns.

Energy Charge	12.2900 ¢ per kWh
Nighttime EV Charging Credit	12.2900 ¢ per kWh
TDU Delivery Charges	\$4.06 per billing cycle
TDU Delivery Charges	6.0295 ¢ per kWh

Nighttime EV Charging Hours is defined as electric vehicle (EV) charging that occurs from 11:00 PM through 4:59 AM, Monday through Sunday, including holidays. Home EV Charging is defined as kWh consumption from EV charging that occurs at the residential service address associated with the plan enrollment. The Nighttime EV Charging Credit will be applied to all Energy Charge consumption for Home EV Charging that occurs during Nighttime EV Charging Hours. Any Home EV Charging that occurs outside of the Nighttime EV Charging hours will be charged at the standard Energy Charge.

TDU Delivery Charges will be passed through to customers without markup and apply to all kWh consumption, including Nighttime EV Charging Hours. For updated TDU Delivery Charges please go to <https://mygexa2.gexaenergy.com/tdu-charges>.

The total kilowatt-hour usage shown on your monthly invoice (Billed Usage) is provided by the Transmission and Distribution Utility (TDU). Usage for each time-of-day billing period shown above is determined from interval data from your advanced meter (Interval Data) and is also provided by the TDU. If the totaled Billed Usage and totaled Interval Data do not match, the Interval Data will be proportionately adjusted so the sum of all intervals equal the Billed Usage provided by the TDU.

Some locations may be subject to a TDU Underground Facilities and Cost Recovery charge authorized by their city that is not included in the total average prices shown. For more details see your TDU service tariff for a listing of cities and authorized charges.

Home EV Charging occurring during the Nighttime EV Charging hours is determined from telematics data available to Gexa Energy when you connect your electric vehicle to our telematics platform. If you do not connect your electric vehicle to our platform, you will not receive a Nighttime EV Charging Credit for your Home EV Charging.

Other Key Terms and Questions	This is a paperless product. All bills and contract-related notices will be sent by email including contracts, disclosures, contract expiration notices and disconnect notices. A valid email address must be maintained while receiving service on this plan. Failure to provide and maintain a valid email address while on this plan may subject customer to certain fees as further described in the Terms of Service. See Terms of Service for a full listing of fees, deposit policy, and other terms.	
Disclosure Chart	Type of Product:	Fixed Rate
	Contract Term:	24 Months
	Do I have a termination fee or any fees associated with terminating service?	Yes, Gexa will assess a \$295.00 early termination fee for termination of service before the end of the contract term. This fee will not apply if you move and provide a forwarding address and other evidence verifying the move.
	Can my price change during contract period?	Yes
	If my price can change, how will it change and by how much?	Your price may be adjusted to reflect changes in TDU charges; changes to the Electric Reliability Council of Texas or Texas Regional Entity administrative fees charged to loads; or changes resulting from federal, state or local laws or regulatory actions that impose new or modified fees or costs that are outside our control.
	What other fees may I be charged?	Please see the “Summary of Gexa Energy Non-Recurring Charges” section of the Terms of Service. These fees are not included in the recurring charges.
	Is this a pre-pay or pay in advance product?	No
	Does Gexa purchase excess distributed renewable energy?	Yes, subject to enrollment on an eligible electricity plan and execution of an Interconnection Agreement with your Transmission and Distribution Utility (TDU).
	Renewable Content	This product is 100% renewable
	The statewide average for renewable content is:	33.3%
