Average price is calculated as: [((Standard Hours Energy Consumption - Eligible Vehicle charging during Eligible Hours) X (Standard Hours Rate + TDU Delivery Charge)) + ((Wind Hours Energy Consumption – Eligible Vehicle charging during Eligible Hours) X (Wind Hours Rate + TDU Delivery Charge)) + TDU Base Charge + Home Charging Fee - VPP Credit] / Total Energy Consumption																
*The average price per kWh assumes one (1) Eligible Vehicle that consumes 300 kWh per month during Eligible Hours. Your average price per kWh may vary from this estimate based on the number of vehicles enrolled or if your actual usage is more or less than the estimated 300 kWh per month.																
**Requires Powerwall device that is configured to fulfill VPP Program requirements.																
Other Key Terms / Questions	This price disclosure is an example based on average prices - your price for electricity service will vary based on your actual usage and vehicle charging. For updated TDU Delivery Charges go to https://www.puc.texas.gov/industry/electric/rates/tdr.aspx . TDU Delivery Charges will be passed through to customers without markup. Some locations may be subject to a TDU Underground Facilities and Cost Recovery charge authorized by their city that is not included in the total average prices shown. For more details, see your TDU service tariff for a listing of cities and authorized charges.															
	See Terms of Service for a full listing of fees and other terms.

Disclosure Chart	If my price can change, how will it change and by how much?	Your price may be adjusted to reflect changes in TDU charges; changes to the Electric Reliability Council of Texas or Texas Regional Entity administrative fees charged to loads; or changes resulting from federal, state or local laws or regulatory actions that impose new or modified fees or costs that are outside our control.
	What other fees may I be charged?	Please see the “Itemization of Non -Recurring Fees and Charges” section of the Terms of Service. These fees are not included in the recurring charges.
	Is this a pre-pay or pay in advance product?	No
	Will I be participating in the Virtual Power Plant (“VPP”) Pilot Program?	If you meet the eligibility criteria for participating in the VPP Pilot Program, Tesla may use your Enrolled Powerwall for providing Grid Services (see VPP Program section of the Terms of Service). During the VPP Program pilot phase, Tesla will, in its sole discretion, reasonably estimate the value that your Enrolled Powerwall(s) contributed relative to total VPP market settlements from all ADERs for applicable Grid Services during the applicable meter read cycle. Your VPP Credit will be equal to Tesla’s estimate of your relative contribution.
	What are Eligible Hours for Unlimited Vehicle Charging?	12 am (midnight) - 6 am
	What is my Energy Sellback Rate?	90% of Real-time Market Price
	Does REP purchase excess distributed renewable generation?	Yes.
